

# Client Case Study

Biotech life sciences company

## About the Client:

- 6,000 benefit eligible employees
- 3 plan options
- Participation rate: 21%

A global leader in biotech life sciences used Decision Doc for the first time to help employees choose the best value plan for their health needs.

## Employee impact

1,260 employees used Decision Doc to help them choose a health plan.

Decision Doc users changed their plan 3.5x as often as non-users.

# Increased Use of High Deductible Health Plans (HDHP) and Health Savings Accounts

Decision Doc users moved to an HDHP **6.5x more** often than non-users.

Decision Doc users in an HDHP increased their HSA contributions by an average of **\$661** in their HSA compared to a **\$128** increase among non-users.

Of the employees newly enrolled in an HDHP, Decision Doc users contributed an average of **\$2,479** compared to **\$1,884** for non-users.

## Employee satisfaction

90% of users say Decision Doc was easy to use!
