

DD Impact Report

Decision Doc by the numbers

We measure our impact on your employee enrollment decisions by exposing migration trends and savings, which will help support more employees in the next year.

ROI

By comparing pre- and post-census elections of Decision Doc users, we show how Decision Doc impacted employee savings, employer savings, and HSA usage.

Employee savings

\$1,677

Average total cost savings for MHM users who chose a more optimal plan.

Employer savings

\$10,068

Aggregate employer tax and benefit savings.

HSA contributions

\$1,148

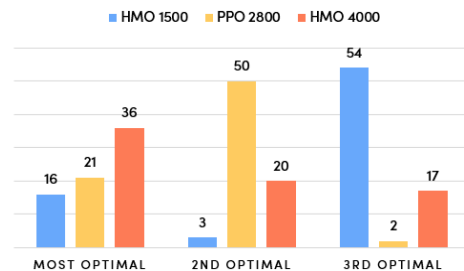

Average HSA contribution among MHM users, compared to \$622 for non users.

Plan Design

Take a deep dive into how well your plan options are serving your employees.

Plan Optimization

Plan analysis data showing which health plans were most optimal for your employees.

Plan Migration

Migration data showing whether employees move to their optimal plan.
